Your light.
Your rules.

ZigBee accessories for dimming, control and scenes — installed in minutes, controlled by app, voice or button.

HOME CONTROL

Switch, dim and automate from app, scene or physical button.

STEPLESS DIMMING

Smooth fade up and down with push dimming and memory.

LOWER ENERGY USE

Measured right in the smart plug — better operation and a smaller bill.

ZIGBEE 3.0

Works with Hue, Homey, Alexa, Home Assistant and more.

Accessories that fix the small annoyances.

Eight products that make your light behave the way you want it to: stepless dimming, scenes on physical buttons, energy metering in the socket and hidden modules behind existing switches — all ZigBee 3.0.
